

699-000-8029
Employ Individual Camouflage in a Snow Covered Environment
Status: Approved

Security Classification: U - Unclassified

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the US Army Alaska Force Protection Program Manager foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Conditions: In any snow covered field environment above or below treeline while wearing Extended Cold Weather Clothing System appropriate to conditions, fighting load carrier, ballistic helmet, weapon, and rucksack. Given a set of over whites (trousers, parka, mitten covers, helmet cover and rucksack cover), tape if available and a requirement to camouflage yourself and individual equipment in a snow covered environment. Standard MOPP 4 conditions do not exist for this task. See the MOPP 4 statement for specific conditions.

Standards: Employ individual camouflage in snow covered terrain without error IAW the cold weather student handout, using the GO/NOGO checklist. Ensure to select camouflage outerwear appropriate for the terrain, camouflage equipment and weapon without affecting the function. Change the camouflage scheme as the conditions change and ensure there is no ocular detection beyond 50m.

Special Conditions: None

Safety Risk: Low

MOPP 4: N/A

Task Statements

Cue: None

DANGER

None

WARNING

Camouflage skin paint will not be worn when temperatures are below 32° F. The main reason for this is that it will become impossible to monitor soldiers for cold weather injuries (frostbite) when skin camouflage is worn.

CAUTION

None

Remarks: None

Notes: None

Performance Steps

1. Camouflage yourself and your individual equipment using techniques appropriate for different snow-covered terrain.
2. Demonstrate camouflage techniques for different terrain situations.

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the Soldier GO if all performance measures are passed. Score the Soldier NO-GO if any performance measure is failed. If the Soldier scores a NO-GO, show the Soldier what was done wrong and how to do it correctly.

Evaluation Preparation: tup: Provide the Soldier with the equipment and materials described in the conditions statement.

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. Camouflaged yourself and your individual equipment using techniques appropriate for different snow-covered terrain.			
2. Demonstrated camouflage techniques for different terrain situations.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. IAW local policies.

Safety: In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine.
